A GIS-based Analysis of Wildlife Vehicle Collisions in the Chignecto Isthmus

14:40-14:55

Who we are

Geography and Environment – part of Mi'kma'ki, the unceded territory of the Mi'kmaq people -- is an interdisciplinary department, housed within the Faculty of Social Science, which offers Bachelor of Arts majors in **Environmental Studies** (BA) and **Geography** (BA) and a Bachelor of Science major in **Environmental Science** (BSc). These programs are also available as minors, along with **Geographic Information Systems** and courses in **Indigenous Environmental Science**.

We use knowledge from many disciplines in our teaching and research, to explore and take action on the world's most pressing environmental and social issues.

About our Programs

If you would like to learn more about the programs offered in the Department of Geography and Environment, please visit the MTA webpage.

We are physically located on the 3rd floor of the Avarad Dixon Building.
